The Executive Committee
Sigma Chi International Fraternity
1714 Hinman Ave.
Evanston, IL 60201

Members of the Executive Committee,

The proud men of the Sigma Chi Beta Phi Colony are happy to announce that over the course of the last year and a half our brotherhood has made exceptional progress towards once again becoming a chartered chapter of the international Sigma Chi Fraternity. We have had triumphs and struggles, but steadily we have marched on toward our goal. Colony members at the UA come from all walks of life. Our ranks include an ASUA senator, an Icecat, a local DJ, the lead singer of a local rock band, the Vice Wing Commander of the Air Force ROTC, a hasher for Gamma Phi Beta, rugby players, 4.0 students, students studying engineering, anthropology, and physics, among others. Truly we represent men of different temperaments, talents, and convictions. What unites us our singular drive for reuniting with Sigma Chi, and continuing to develop each other into leaders of men. We have achieved success beyond expectation and we are proud to report we have already begun fulfilling our mission statement:

Sigma Chi Beta Phi is committed to upholding the values of Friendship, Justice, and Learning. Through aggressive targeted recruitment, a comprehensive pledge education program, an emphasis on philanthropy, and keeping in mind their legacy, they plan to establish a true values-based, leadership fraternity that will have permanent and influential presence at the University of Arizona.

We feel this statement sums up our mission at our university, and we hope you will join us in feeling the excitement and anticipation of the reestablishment of the Sigma Chi fraternity at the University of Arizona. After completing the Declaration of Intent and the two Phase reports, we respectfully petition to once again receive our charter. We are confident that we will live up to the ideals of our fraternity, and that we will pass this charter on to the next generation in good hands.

Always proud to be a Sigma Chi expansion chapter,
